- **Please register for CE & complete evaluation**

Purpose: The purpose of this audio conference is to provide participants with an understanding of falls in Parkinson's Disease patients, and to improve the health and well being of veteran patients with Parkinson's Disease through enhancing the knowledge and skills of health care professionals.

Outcome Objectives: At the conclusion of this program, participants should be able to:

1. Identify patients with Parkinson's Disease who are at risk for falls.
2. Recognize how falls affect the lives of patients with Parkinson's Disease.
3. Identify the common causes of falls in patients with Parkinson's Disease.
4. Identify the therapeutic approaches, including exercise, that reduce the risk of falls.
