AUDIO access: connect through your computer or call: **800-767-1750** **Conference ID: 27733**

Target Audience: VHA providers and health care clinicians/professionals interested in Parkinson's disease.

Continuing education credits: Doctors, Physician Assistants, Nurse Practitioners, Nurses, Psychologists, and Kinesiotherapists.

Accreditations: ACCME, ACCME-NP, ANCC, APA, and COPSKT (provider number is 011118).

On-line evaluation in TMS must be completed by Feb 11 to receive CEUs.

Description: The purpose of this presentation is to introduce VHA clinicians to the role of Kinesiotherapy integration in Parkinson's and Movement Disorder programming. The talk will provide information on the profession of Kinesiotherapy and applicable modalities. Additionally, individualized case studies and application knowledge will be shared of veterans participating in Kinesiotherapy programs. This presentation part of the FY 2018 PADRECC Movement Disorders Series, designed to provide VHA healthcare providers with current practice standards and emerging trends in the treatment of Parkinson's disease and other movement disorders.

Outcome Objectives: At the conclusion of this educational program, learners will be able to:

1. Summarize the history of Kinesiotherapy in the VHA.
2. Verbalize what Kinesiotherapy is, and how it can benefit our Veterans.
3. Identify benefits of exercise and behavior change in Veterans with Parkinson's disease.
4. Analyze case study scenarios and consider future consultation to Kinesiotherapy.
